To Whom It May Concern:

The purpose of this letter is to explain why it is believed that provisional administrative permits are effective. The provisional administrative permit is available to individuals who have completed at least 50% of the graduate credit hours for school administration as a principal or curriculum supervisor, or at least 75% of the graduate credit hours for superintendent. This provisional administrative permit allows individuals to be employed as an administrator by a Nebraska school while continuing to take graduate courses at a standard institution of higher education for which at a later date the individual would apply for and receive a standard administrative certificate.

Provisional administrative permits are issued for a term of two years and are not renewable.

Please feel free to contact me if you have any questions on this certificate type. I can be reached at 402-471-0738 or at clayton.waddle@nebraska.gov.

Sincerely,

A handwritten signature in black ink that reads "Clayton L. Waddle".
